

Liferafts

Life Raft for 1 person, LRU-16/P

The LRU-16/P Life Raft Assembly consists of an inflation assembly (CO₂ and inflation valve), a sea anchor, storage pockets for emergency beacons and light, ballast bags/water pockets, a spray/weather shield, and an inflatable floor.

The packaged configuration of the One Man Life Raft Assembly including survival items will vary depending on the application of the raft.

Life Raft for 2, 4, 6 or 8 persons

Item	FR-2	FR-4	FR-6	FR-8
Raft Capacity	2 Persons	4 Persons	6 Persons	8 Persons
Overload Capacity	3 Persons	6 Persons	9 Persons	12 Persons
Buoyancy	445 lbs	676 lbs	911 lbs	1,076 lbs
Total Deck Area	7.2 ft ²	14.4 ft ²	21.6 ft ²	28.8 ft ²

Pull the lanyard and the CO₂ cylinder inflates these rafts in less than 12 seconds. Each raft model has a fifty percent overload capacity. Their reputation for quality is evident in the top grade neoprene coated nylon fabric that is used to manufacture them and in the lap seam and tape construction that combine to deliver the utmost dependability. These Life Rafts come completely outfitted and ready to use in an emergency.

Life Raft for 4, 6 or 8 persons

The ultimate liferaft for all types of sailing. Self-righting properties, 2 large entrances and a special boarding ramp make this liferaft the safest choice for your family and crew.

Orange canopy, boarding ramp and ballast bags.

4 large quick filling ballast bags, each containing 60 liters – for maximum stability.

Fitted with exterior strobe light and interior light, high-visibility reflective tape on roof, sides and buoyancy compartments.

Packed in a sturdy fibre glass container or handy water resistant valise.

Life Raft for 12 persons

Designed and manufactured for air force applications, the aviation liferaft comes in a highly durable, light-weight polyurethane-coated nylon fabric complying with FAA specifications. A special boarding arrangement allows evacuees lying in the water to almost directly swim into the liferaft.
